

## **Position: Landscape Designer**

**Cairn Landscape Architects** is a new landscape architecture firm founded in September 2020 on the idea that **collaborative, multi-disciplinary, inclusive** design processes inspire **creative design solutions**. The firm is based out of Jackson, WY and specializes in residential landscape, multi family, parks design, planning, rural - urban environments and sustainable design. The firm has a passion for design projects that **highlight the unique environment and communities of the mountain west**. We love working on disturbed sites and using our unique skill sets to improve every site's connection to the natural environment. We are looking for self-starters to join our team who are excited about being an integral part of a growing firm and working / playing in the Tetons.

**We value:** collaboration among our team and allied professionals, restoration, thinking holistically, a work / life balance, adventure and using every design project as an opportunity to steward the fantastic landscapes we call home.

**Salary Range:** 55-65 K per year, dependent on experience level

**Location:** Preference given to those who can work in person or hybrid out of our Jackson, WY office. Remote options are available in Colorado for the right candidate.

**Description:** This position is for an entry level landscape designer with a Bachelor's or a Masters in Landscape Architecture and 0-3 years of experience. The ideal candidate must be a self-starter, be able to work independently and be able to multitask in all parts of the design process from concept sketching to construction documents to site visits. Attention to detail is highly valued. Great attitude, good sense of humor and fun required. The Landscape Designer is primarily a production work position with some coordination responsibilities such as communicating with other consultants.

### **Responsibilities:**

- Works with project manager or coordinator to develop initial design concepts as directed. Actively participates in discussion and provides suggestions or design ideas.
- Develops 2D and 3D digital graphics and presentations.
- Develops production documents, including permit sets and construction documents, under the guidance of Project Coordinator/Manager.
- Provides design input and potential design solutions for discussion with Project Coordinator/Manager
- Attends client meetings, presentations, and site visits.

*February 23, 2024*

**Required skills:** construction knowledge, AutoCAD (LandFX a plus), Sketch Up (Lumion a plus), Adobe Suite, hand drawing skills, rendering skills, basic knowledge of grading, construction documents, permitting and planting; able to lift 50 lbs or greater, able to be outside for extended periods of time on construction sites.

**Benefits and Compensation:** Competitive Salary, Unlimited PTO, remote / hybrid work environments, Health Insurance Plan (company pays 100% of insurance premium), optional dental and vision insurance, housing stipend (dependent on location), professional development reimbursement, flexible schedule, work/life balance, competitive bonus structures, ski pass reimbursement, and 1% of company profits donated to environmental non-profits of staff's selection.
